

## CAPABILITY STATEMENT

# Innovative IT Solutions for Public-Sector Impact

Looking to modernize your agency with confidence?

“

*INSIMIND delivers tailored IT strategies, cloud-native platforms, and AI-driven data solutions. Focused on execution and precision, services are designed to help organizations modernize and scale with confidence.*

”

### PAST PERFORMANCE

- 7PB GCP data migration with automated validation (Telecom) — improved data accuracy by 35% and reduced audit prep time by 60%
- Multi-cloud AI platform for claims analytics (Healthcare) — shortened review cycles by 40% and improved compliance tracking efficiency
- Azure/Snowflake dashboard for real-time visibility (Utilities) — increased operational insight by 50% and reduced report turnaround by 70%
- Retail data platform modernization and cloud integration — decreased latency by 45% and enabled 3x scalability for future workloads

### DIFFERENTIATORS

- Deep Technical Experience
- Tailored, Scalable Solutions
- Certified Multi-Cloud Expertise
- Results-Driven Execution

### CORE COMPETENCIES

#### Cloud & Infrastructure Engineering:

Multi-cloud architecture, infrastructure modernization, and platform optimization

#### Data Platform & System Integration:

Design and support for scalable data systems, pipelines, and enterprise connectivity.

#### Data Migration & Quality Validation

Structured migration and validation strategies for large, mission-critical data systems.

#### AI, Analytics & Automation:

Custom-built AI models and analytics solutions to improve decision-making and workflow automation.
